Disposa Blocks®

Part #: 3128 - 8 base Disposa Block®
31280P - 8 base Disposa Block® for Optek

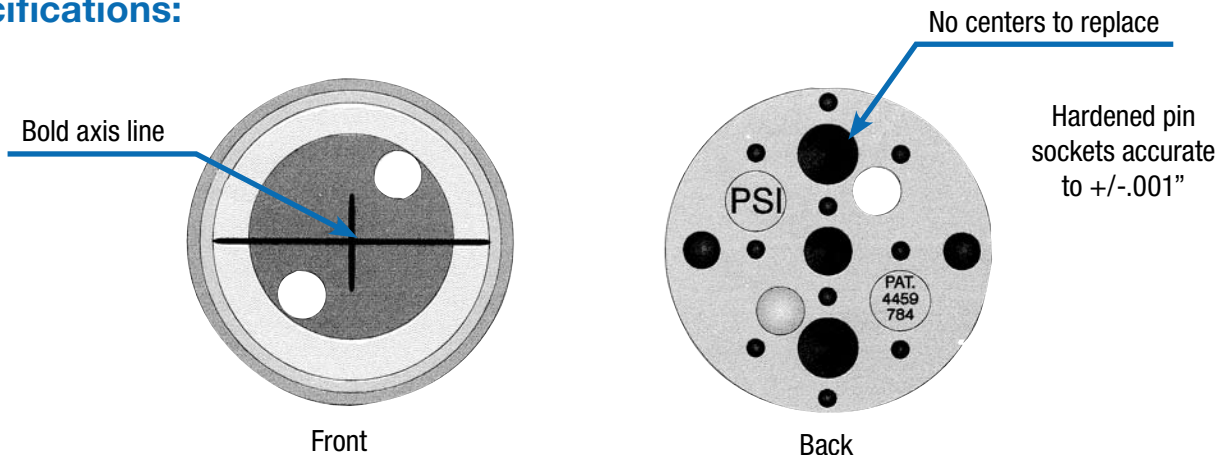

PSI's maintenance free Disposa Blocks® save time and money in your blocking department. Unlike conventional blocks, Disposa Blocks® do not have centers that need replacing or crevices to collect dirt and alloy. They are corrosion resistant, totally hardened throughout, eliminating nicks and dents on the chucking surface. They feature a prominent axis line and centering cross to eliminate misalignment reducing rejects.

Features & Benefits

- Disposa Blocks® save time and money because they don't have centers to replace or crevices to collect dirt and alloy.
- Will last in excess of 6 months.
- Totally hardened throughout eliminating nicks and dents on the chucking surface.
- Corrosion resistant.
- Pin centers are always the same depth and dimensions are accurate to +/- .001".
- Prominent axis line and centering cross eliminate misalignment and substantially reduce rejects.
- Disposa Blocks® can be replaced as needed due to their low cost and last five times as long as hardened centers.
- Can be used on all lens types and on 2-10 diopter curves.
