

PSI LenSaver Tapes

EZ LenSaver Tapes - Linerless

These linerless tapes are EZ on the environment, EZ to use, EZ to remove and EZ to view progressive lens markings. Fit manual and automatic tapers. Available in blue and green.

PSI Green LenSaver Tape

Provides high performance and outstanding visibility of lens markings especially on camera assisted blocking systems. It offers excellent adhesion but is easy to remove and deblock without residue. It is designed to be used with alloy or wax on all lens materials and curves without wrinkling.

PSI Blue LenSaver Tape

Protects the front surface of plastic, high index, polycarbonate and glass lenses during surfacing. PSI Blue conforms to all lens types without wrinkling. It offers a superior bond on coated and uncoated lenses and separates easily from alloy blocks. **Available in a double (72 yd.) roll for PSI ASTAs or standard 36 yard rolls.**

PSI Clear LenSaver Tape

Provides protection to front lens surface and lowers reject rates due to scratching. PSI Clear protects lenses from wax residue and eliminates messy wax clean up. Adheres without wrinkling.

LenSaver Performance Tape

Compatible with any lens taping system, LenSaver Performance Tape offers superior elasticity and excellent heat protection. Used with alloy blocking on glass and plastic lenses. Available in 4 sizes. 1400 is the standard 36 yards (for all tapers). 1400-16 is 60 yards, made especially for PSI's ASTA tapers but also works with 3M manual tapers reducing the amount of time for changing out tape rolls. 1400-1 is 108 yards for PSI's Hot Knife ASTAs and other auto tapers. New is the 1400-210 which is 210 yards ideal for auto tapers.

Specifications:

Part #	Description	Lens Types	Blocking Type	Liner	Tape Thickness	Package Quantity	Avg. # of Lenses/roll
1005LL	EZ LenSaver Tape - Green	All	Alloy/Wax	NO	4.5 mil	72 yards/roll	550-600
