Quick Change Pin Holders & Long Life Pins

PSI's Quick Change Pin Holder allows cylinder pins to be changed without removing the pin holder. This eliminates the need to reset the axis reducing downtime. The pin holder body is constructed of high tensile strength aluminum and then anodized to prevent corrosion. All other parts are stainless steel.

PSI's Long Life Pins further reduce downtime by lasting many times longer than conventional pins.

Features & Benefits

Quick Change Pin Holders

- Fits most cylinder machines, special version available for Optek machines.
- Locking draw bolts to allow changing of cylinder pins without removing pin holder.
- Eliminates the need to reset the axis greatly reducing down time.
- Constructed of high tensile strength aluminum alloy which is anodized to prevent corrosion.
- All screws, bolts and washers are stainless steel.

Long Life Pins

- Pins are hardened to last longer than conventional pins reducing down time.
- Manufactured with a shoulder to allow for consistent location in pin holders.
- Available in blunt, sharp and short sharp styles to accommodate most machines.

Part Numbers:

Quick Change Pin Holders

207A - Quick Change Pin Holder w/Sharp Pins

207B - Quick Change Pin Holder w/Blunt Pins

207S - Quick Change Pin Holder w/Short Sharp Pins

Long Life Pins

205 - Blunt Pins for Alloy

206 - Sharp Pins for Coburn

206S - Short Sharp Pins for Coburn
507 Machines
