

Tinting Solutions

Heat Transfer Fluid (HTF)

PSI's Heat Transfer Fluid (HTF) ensures even heating in tint units with no hot spots. Its high boiling point allows it to maintain the 200-210° temperatures needed for tinting without boil over. It is non-corrosive, non-toxic and odorless. It offers little or no evaporation.

Part #: 2138G - gallon

Quick Clear Neutralizer

Quick Clear Neutralizer removes color from plastic, high index and polycarbonate lenses. It will not yellow lenses and is non-toxic and biodegradable. It is a low evaporation and self cleaning formula.

Part #: 711G - gallon

Easy Clean

Easy Clean is a water repellent treatment for plastic and A/R coated lenses to prevent smudging. It imparts an anti-static property to repel dust and fibers. Lenses treated with Easy Clean wipe clean easily and stay cleaner longer than untreated lenses. Treatment is applied by cold dipping the lenses for under a minute.

Part #: 2125L - gallon

Scratch Resistant Treatment (SRT)

Scratch Resistant Treatment protects plastic lenses from scratches. It does not affect the optics of the lens and there are no flow lines, buildup, cracking, crazing, peeling or discoloring with this product. It is easy to apply. One quart treats 100 pair of lenses.

Part #: 1008 - quart; 1008G - gallon

2001 UV Concentrate

Independently tested and proven to block 99.9% of harmful UV rays without fading over the life of the lens. Will not yellow lenses. 2 minute application for uncoated lenses, coated lenses take 30-45 sec. Makes one quart which will treat up to 200 pairs of lenses. Recommended for plastic and high index lens materials.

Part #: 777 - 4 oz.

One Week UV

Economical UV for weekly change out which assures 98% UV blockage without testing. This non-yellowing formula is non-toxic and biodegradable. It makes one quart which treats up to 100 pairs of lenses in one week. 2 minute application time.

Part #: 778 - 4 oz.

Blue Light Blocker

An easy way to reduce exposure to blue light from overuse of digital devices such as tablets, cellphones and computer screens. It is applied like a tint on all lens materials and is compatible with AR. Blocks blue light to 525nm and filters out harmful ultraviolet rays. Reduces glare under regular conditions and in rain, snow and ice. Improves vision with increased contrast and better vision in fog and mist. Great for outdoor activities.

Part #: 1012A - 4 oz. concentrate

Cleaning Solutions

Ultra Clean

UltraClean is a specially formulated concentrated cleaning solution for use in ultrasonic cleaners. It safely removes soils from metals, glass and plastics.

Part #: 2124G - gallon

Quick Clear Tint Pan Cleaner

Why scrub when you can just wipe your tint pans clean. This no-scrub formula emulsifies old dye from the cracks and pores of the tint pan cleaning them with little effort. It leaves a protective coating making pans even easier to clean the next time.

Part #: 190 - 8 oz.

All Off Marking Ink Remover

Instantly dissolve and remove any progressive ink markings with the industry's most widely used solution. Safer than caustic Acetone and will never ruin polycarbonate lenses. Simply apply with a swab, cloth or even dip into solution for 2 seconds. Mess-free Pen will remove ink from approximately 100 lenses.

Part #: 99-A0 - 16 oz.

99-A04 - 4 oz.

99-AOP - Pen

Lens Cleaner

SIMPLY CLEAN

Cleans glass, plastic, polycarbonate and A/R coated lenses quickly w/ cleaning of lenses and frames. Quickly removes dust, dirt, grime an CD's cameras, binoculars, chrome, paint, mirrors and more without:
